

Attachment no.1 to Certificate of Analysis No. FP2420261

Date of Issue: 08.08.2024

Information on sample	
Sample name	GreenFood Nutrition Greens
Sample identification	FP2420261-001

Evaluation of Results

Chemical analyses:

Monitored sample parameters comply with legislative specifications.

The evaluation of parameters Lead, Cadmium and Mercury were evaluated according to Commission Regulation (EC) No. 2023/915 (Category: 3.1.28, 3.2.21.1, 3.3.2) as amended.

Sampling and sample collection are not subject to accredited certification of the laboratory. Tested samples are kept in the laboratory in accordance with requirements provided by the client. Limit values (specifications) are determined according to a specification on the product or under authority of a relevant regulation. A certificate of analysis is not a certificate of product approval, neither does it include a certificate of shelf-life extension. Performed tests may not comply with the requirements of supervisory bodies or another involved party. This annex is relevant to tested samples only and it is integral part of the Certificate of Analysis.
